

Brussels, 23 November 2021

INVITATION

Dear all,

Over the years, FABEC has conducted a series of workshops on specific operational topics. Based on your positive feedback after our first Vertical Flight Efficiency workshop in December 2020, it is our pleasure to invite you to the

2nd FABEC VFE (Vertical Flight Efficiency) Expert Workshop

Tuesday, 7 December 2021

10:00 - 16:00

online

Environmental impacts are high on the agenda. Therefore we need to continue working together on improving VFE. During the online workshop, FABEC ANSPs, airlines and flight plan service providers will highlight the progress made since last year (e.g. trials, actions taken) and explore solutions for the future.

The detailed agenda and practical information can be found on fabec.eu. Due to covid regulations presence onsite skeyes, from where the online platform will be launched, is limited to presenters and organizing committee. The link to the online platform will be distributed to those who registered via fabec.eu the closer we get to the event.

If you have any suggestions, questions or comments feel free to contact Mrs. Nadine Meesen, responsible for FABEC CRM activities (nadine.meesen@fabec.eu or [+32 475 9999 48](tel:+32475999948)).

In the meantime we hope that traffic will continue to recover and look forward to seeing you on 7 December

Kind regards

Ilona Sitova
