

# SC ENV activities

**Ilona Sitova**

Chair of FABEC SC ENV

VFE online workshop, 7 December 2021

# SC ENV activities

An **Advisory, Consultation** and **Monitoring** body for the FABEC ANSPs, by proposing joint initiatives and developing FABEC policies and positions in the ENV domain with close collaboration with other FABEC bodies, like: SC OPS, FUA TF, PMG, InterFab etc

- ATM/ANS Transparency WG to provide proposals to improve transparency regarding ANSP environmental performance and demonstrate how ANSPs efforts reduce environmental impacts.
- ICAO/CAEP: participation to the Working Group 2 (WG2) and the Modelling Data Group (MDG) in the CAEP 12 cycle (period 2019-2022);
- CCO/CDO TF has been included as a permanent task in RNDSG; FABEC members participate in (former) CDO/CCO TF and RNDSG;
- CANSO: FABEC members participate in CANSO Global ENV WG and (to a lesser extent) also in the accreditation sub-group.

# SC ENV activities

SC ENV studies:

- “Climate Change and the role of ATM”, focusing on what FABEC ANSPs can do, what they cannot do (and why) and what they plan to do.
- “VFE constraints in Germany” - VFE assessment of eNM19 summer measures on German city-pairs
- “RAD evolution since March 2020”
- “EBBR inbounds” study

# SC ENV activities

Main events 2021:

- FABEC Environmental Day, 5th July 2021, Geneva
- Research WS “Climate Change and the Role of Air Traffic Control”, 22-23 September 2021, Vilnius
- The Vertical Flight Efficiency Workshop (VFE WS), 7th December 2021
